

Heartland Hosting Services

Hosted Exchange

People not emails.

When you are fixated on your email problems, you are not helping your customers or your colleagues. If you have an email server at your location, it is gathering dust and slowly breaking down with every passing moment. When that hardware fails you will be engaged in break-fix issues, warranties, disgruntled employees, and diminished revenue. Why not stop the insanity by relying upon Heartland's Data Center services for your email?

Greater functionality than your onsite Exchange but without the headaches...

Heartland Hosted Exchange

The Heartland Hosted Exchange Advantage.

With our fully functional off-site Exchange offering, you no longer need to concern yourself with a local installation of Exchange. Your Outlook 2003/2007 users seamlessly connect to your company's Exchange profile in our Data Center. Our fully redundant internet connections and servers offer you multiple exchange roles, PCI Compliant encryption, multiple access methods and peace of mind.

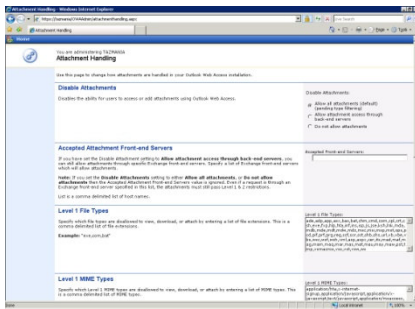

Put your Heart into IT.

Two Hosted Exchange Packages.

Hosted Exchange Standard

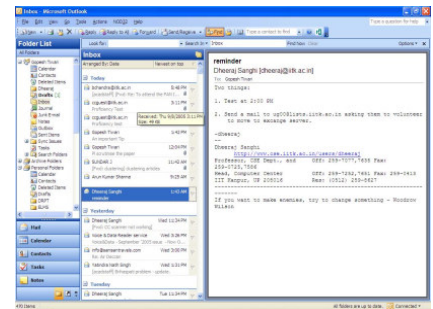

Fully functional Exchange including use of Shared Folders, Public Folders, Shared Address List, Shared Tasks, Shared Contacts, Shared Calendar, Group scheduling (including viewing free/busy times of others) Outlook Web App, and Mobile Device Access**. This plan is to be used when the customer already owns Microsoft Office 2003, Microsoft Outlook 2003, and/or Entourage. 2GB-4GB Mailbox storage options.

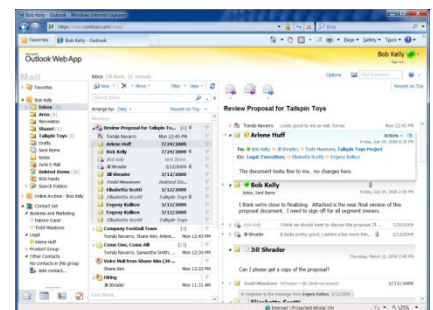

Exchange Admin Console

Outlook Web App Login

Microsoft Outlook Client

Outlook Web App

Hosted Exchange Plus

This monthly package includes all the features of Exchange Standard and use of Entourage or Outlook client software. The Entourage and/or Outlook software will be provided.

All Plans: *Setup fee waived with the purchase of a One year contract but does not include data transfer hours. *Does not include spam filtering or anti-virus. **Mobile Device Access limited to Microsoft ActiveSync capable devices.

Requirements: *Customer must have Windows XP Service Pack 2 or higher. **Customer must also have Outlook 2003 or higher unless subscribing to the Plus package.

Pricing: Please relay your amount of users, preferred Hosted Exchange package, and desired capacity per user with your Heartland Sales Consultant in order to configure your monthly and yearly Hosted Exchange proposal.
